DRAFT Incident Command Transition Document 9 14 15 hqeocv4cleandocx (2).docx

David, this is the latest Transition plan that I have seen. Assuming the twice per week sampling began the week of 9/21/15, we should be in the first week of once/week sampling which would end on October 17th. David Ostrander is working on the transition from the ICP sampling to the Long-Term monitoring strategy (Steve Merritt is managing). Apparently, the current plan is that there is no one who will be replacing the current IC (Region 8 is not allowed to volunteer). I'll keep you posted if and when I hear more. Thank you, lw

Folks, these documents address next steps on reducing sampling frequency, the PIO function, call center, etc. They are all quite short and include comments from HQ EOC desks. Thank all.
